Norwegian Citizen Panel Wave 1, 2013

Overview

Identification	NSD2065
Version	Production Date: 2017-10-10 <u>Notes</u> Original data from University of Bergen are documented and prepared, third NSD-version.
<u>Abstract</u> The Norwegian Citizen Panel is a platform for internet surveys of public opinion in important areas of society and politics in Norway. Participants are randomly recruited from the Norwegian population register, and they are encouraged to participate over time. The panel was fielded for the first time in the fall of 2013 and the survey is carried out about twice a year. The University of Bergen owns and is responsible for the Citizen Panel. The company Ideas2Evidence recruits respondents, produces the survey, and provides documentation of the data. Data is stored and shared by the Norwegian Social Science Data services (NSD). The Norwegian Citizen Panel welcomes research proposals for survey content. More information about calls and other updates is available at www.medborger.uib.no The text comments in the dataset can be found in a separate excel-document, and will be delivered along the dataset. The text comments are attached to a serial number for the respondents. For access to the dataset, use the NSD application form: http://www.nsd.uib.no/nsd/english/orderform.html	
Kind of Data	Survey data
Unit of Analysis	Individual

Scope & Coverage

Keywords	Attitudes, Political attitudes, Social attitudes, Political participation, Citizen participation, Constituents, Party identification, Political allegiance, Climate, Climatic changes, Interethnic relations, Intergroup relations, Social behaviour, Environment, Environmental changes, Climatic changes, Global warming, Politics, Political action, Political behaviour, Immigration policy, Environmental policy, Political, social and economic issues, Safety and security measures, Protection from terrorism, Security services, Panel data
Topics	Mass political behaviour, attitudes/opinion, Politics, Environmental degradation/pollution and environmental protection, Social behaviour and attitudes
Countries	Norway
<u>Geographic Coverage</u> Country	
<u>Universe</u> Norwegian citizens above the age of 18.

Sampling

Sampling Procedure

Gross sample: 24 942 persons

Net sample: 4905 persons

Response rate: 19,7 %

Based on international literature the panel recruitment process was expected to have a success rate of approximately 14 percent. In order to reach our minimum target of 3 500 respondents we therefore had to draw a gross sample of 25 000 individuals.

The sample was drawn from the Norwegian National Population Registry. This register includes everyone born in Norway as well as former and current inhabitants. The Norwegian Tax Administration is responsible for the register, but the administration is partly outsourced to the private IT-company Evry. Evry drew the sample on behalf of the Citizen Panel after the necessary permissions were acquired from the Norwegian Tax Administration.

25 000 individuals over the age of 18 were randomly drawn from the register. The extracted data was a) last name, b) first name, c) address, d) gender, and e) age. The sample excluded people with no current home address in Norway.

Furthermore, all individuals over the age of 95 were excluded from the sample. This amounted to 58 persons, thus leaving a net sample of 24 942 individuals before the recruitment process started.

Data Collection Mode:

Panel members were recruited per post in two steps.

First, letters were sent to everyone in the sample. The letters contained the following information; a) a description of the project, b) the Citizen Panel's policy on privacy and measures taken to protect the anonymity of the participants, c) the time-frame of the project, d) the participants' rights to opt out of the panel at any time in the future, e) contact information for the people responsible for the project, f) a unique log-in id and the web address to the panel's web site and g) the estimated time required to complete the survey (20 minutes).

In order to maximize the response rate, an incentive in the form of a travel gift card was included in the project. The value of the gift card was 25 000 NOK. To enter the lottery respondents were required to join the panel and provide their e-mail addresses. Respondents were asked to register on the panel's web site and log into the survey using the unique id-code provided in their personal letter. Information on the lottery was included in all correspondence with respondents.

The letter was posted on the 6th of November 2013.

A reminder post card was sent on the 22nd of November 2013 to those respondents who a) had not logged into the survey, or b) had neither completed the survey nor provided their e-mail address. Respondents were encouraged to join the panel, with reference to the letter sent two weeks prior. The unique log-in id provided in the original letter was also included in the post card. A reminder e-mail was sent on the 25th of November to those respondents who had provided their e-mail addresses, but had not yet completed the survey.

Weighting

To compensate for the observed bias, a set of weights has been calculated. The weights equal the relation between a given strata in the population and the total population, divided by the relation between a given strata in the net sample and the total net sample. This procedure returns values around 1, but above 0. Respondents who are underrepresented will receive a weight above 1 and respondents who are overrepresented a weight below 1. The weights of the different strata are listed in the documentation report (table 8 in the appendix).

When calculating the weights, the information regarding the respondent's geographical location, gender and age are based on registry data. These attributes were included in the sample file we received from the Norwegian Population Register. Information regarding the level of education is provided by the respondents when answering the questionnaire. Approximately 9 percent of the net sample did not answer this question. Because of this, two different weights have been calculated:

- Weight 1 based on demographic variables (age, gender and geography)
- Weight 2 combining the demographic variables with education. Respondents with missing data on the education variable are only weighted on demography (the education component of the weight is set to 1 in these cases).

When applied, both weights will provide a weighted N equal to the number of cases in the dataset. We will strongly recommend using weight 2 in any statistical analysis, as this weight provides the most accurate compensation for the various sources of bias in the net sample. An illustration of this is provided in table 5 which shows the effect of weight 2 on the distribution of self-reported level of education in the net sample:

62	w01_dt5_7	Trust in institution or player: The health services	discrete	numeric-1.0	4905	0	Which level of confidence do you have to the following institutions and players? ... P. The health services

#	Name	Label	Type	Format	Valid	Invalid	Question
63	w01_k31_1	Statement: The state should reduce income inequality	discrete	numeric-1.0	4905	0	Consider the statements below. To which extent do you agree or disagree with them? ... A. The state should contribute to reducing inequalities in income in society
64	w01_k31_2	Statement: Better with diversity of religions	discrete	numeric-1.0	4905	0	Consider the statements below. To which extent do you agree or disagree with them? ... B. It is better for a country if there is a diversity of different religions and views on life.
65	w01_k31_3	Statement: Emission reductions should be made abroad	discrete	numeric-1.0	4905	0	Consider the statements below. To which extent do you agree or disagree with them? ... C. Most of the emission reductions Norway is committed to should be made abroad.
66	w01_k14_1	Statement: Politics is complicated	discrete	numeric-1.0	4905	0	Consider the statements below. To which extent do you agree or disagree with them? ... D. Sometimes politics is so complicated that people like me have no understanding of what it's about.
67	w01_k14_2	Statement: Can vote, not much else to influence	discrete	numeric-1.0	4905	0	Consider the statements below. To which extent do you agree or disagree with them? ... E. People like me can vote, but there is nothing else we can do to influence politics.
68	w01_k15_99	Trust people	discrete	numeric-2.0	4905	0	Would you agree that most people in general can be trusted, or do you believe that one can't be careful enough when dealing with others?
69	w01_k16_1	Has an opinion on most issues	discrete	numeric-1.0	4905	0	How do the following statements apply to you as a person? ... A. I have an opinion on most things
70	w01_k16_2	Strong opinions, also regarding new issues	discrete	numeric-1.0	4905	0	How do the following statements apply to you as a person? ... B. I have strong opinions, either positive or negative, including on issues that are new to me
71	w01_ran1	Randomizes independently from U	discrete	numeric-1.0	4780	125	Randomizes into three groups and selects one of the following questions: KM1, KM2, KM3
72	w01_km1	Heard the argument: Climate change a threat, but we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Have you heard or read the following statement? ... A. Climate change is a very serious threat, and a lot more must be done to prevent it. Norway should nevertheless continue to produce as much oil as we currently do, because the world needs energy.
73	w01_km2	Heard the argument: Climate change a threat and we should reduce oil extraction	discrete	numeric-1.0	4905	0	Have you heard or read the following statement? ... B. Climate change is a very serious threat, and a lot more must be done to prevent it. This means that Norway should produce less oil than we currently do, because a large share of the world's fossil fuel must remain unused.
74	w01_km3	Heard the argument: Climate change is not a threat and we should continue to extract oil as usual	discrete	numeric-1.0	4905	0	Have you heard or read the following statement? ... C. Climate change is a not a serious threat, and too much is being done to prevent it. This means that Norway should continue to produce as much oil as we currently do, because the world needs energy.

Variables Description

Dataset contains 331 variable(s)

File : Norsk Medborgerpanel runde 1

responseid: Responseid

Information	[Type= continuous] [Format=numeric] [Range= 1-5018] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	Responseid
Concepts	Data

w01_u: Randomizes the respondents into two groups

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Randomizes the respondents into two groups. The two groups are asked questions common to them both, and questions unique to the group.
Literal question	Randomiserer respondentene inn i to grupper. De to gruppene blir stilt spørsmål som både er felles for begge gruppene og unike for den enkelte gruppe.
Concepts	Data

Value	Label	Cases	Percentage
1	u1		
2	u2		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_k1: Interest in politics

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	In general, how interested are you in politics?
Concepts	National policy, Politics, Political awareness, Political interest, Political party policies, Democracy, Elections, Party politics, Political parties, Voting, Voting intention, Political behaviour

Value	Label	Cases	Percentage
1	Very interested		
2	Interested		
3	Somewhat interested		
4	Not interested		
5	Not interested at all		
97	No answer		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_k2: Voted in the elections

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	Did you vote at the parliamentary elections this autumn?
Concepts	National policy, Politics, Political awareness, Political interest, Political party policies, Democracy, Elections, Party politics, Political parties, Voting, Voting intention, Political behaviour

Value	Label	Cases	Percentage
1	Yes		
2	No		
3	Don't remember		
97	No answer		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

File : Norsk Medborgerpanel runde 1

w01_k3: Voted for following party

Information	[Type= discrete] [Format=numeric] [Range= 1-10] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	Which party did you vote for at the parliamentary elections?
Concepts	National policy, Politics, Political awareness, Political interest, Political party policies, Democracy, Elections, Party politics, Political parties, Voting, Voting intention, Political behaviour

Value	Label	Cases	Percentage
1	The Christian Democratic Party		
2	The Conservative Party		
3	The Progress Party		
4	The Liberal Party		
5	The Socialist Left Party		
6	The Centre Party		
7	The Green Party		
8	The Labour Party		
9	Red		
10	Other:		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_k3_10_other: Text: Voted for following party

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=0 /-]
Literal question	Which party did you vote for at the parliamentary elections?
Interviewer's instructions	[Text data for this particular question has been anonymized. The data can be made available to researchers through application to the Norwegian Centre for Research Data (NSD)]
Concepts	National policy, Politics, Political awareness, Political interest, Political party policies, Democracy, Elections, Party politics, Political parties, Voting, Voting intention, Political behaviour

w01_k4: Time of choosing party

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	When did you decide to vote for the party or list you chose?
Concepts	National policy, Politics, Political awareness, Political interest, Political party policies, Democracy, Elections, Party politics, Political parties, Voting, Voting intention, Political behaviour

Value	Label	Cases	Percentage
1	Before the election campaign		
2	During the election campaign

Concepts Politics, Political awareness, Voting, Voting intention, Political persuasion

Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
97	No answer		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_k15_99: Trust people

Information [Type= discrete] [Format=numeric] [Range= 0-97] [Missing=*]

Statistics [NW/ W] [Valid=4905 /-] [Invalid=0 /-]

Pre-question Now to a more general question:

Literal question Would you agree that most people in general can be trusted, or do you believe that one can't be careful enough when dealing with others?

Interviewer's instructions 0 means "Can't be careful enough" and 10 means "Most people can be trusted."

Concepts Trust, Interpersonal trust

Value	Label	Cases	Percentage
0	0 - Can't be careful enough		
1	1		
2	2		
3	3		
4	4		

# w01_k15_99: Trust people			
Value	Label	Cases	Percentage
5	5		
6	6		
7	7		
8	8		
9	9		
10	10 - Most people can be trusted		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_k16_1: Has an opinion on most issues			
Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How do the following statements apply to you as a person? ... A. I have an opinion on most things		
Concepts	Attitudes, Freedom of thought, Personal identity, Personality, Personality traits		
Value	Label	Cases	Percentage
1	Apply very well		
2	Apply well		
3	Apply somewhat well		
4	Apply neither well nor poorly		
5	Apply somewhat poorly		
6	Apply poorly		
7	Apply very poorly		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_k16_2: Strong opinions, also regarding new issues			
Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How do the following statements apply to you as a person? ... B. I have strong opinions, either positive or negative, including on issues that are new to me		
Concepts	Attitudes, Freedom of thought, Personality, Personal identity, Personality traits		
Value	Label	Cases	Percentage
1	Apply very well		
2	Apply well		
3	Apply somewhat well		
4	Apply neither well nor poorly		
5	Apply somewhat poorly		
6	Apply poorly		
7	Apply very poorly		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_ran1: Randomizes independently from U			
Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]		

# w01_ran1: Randomizes independently from U			
Statistics [NW/ W]	[Valid=4780 /-] [Invalid=125 /-]		
Literal question	Randomizes into three groups and selects one of the following questions: KM1, KM2, KM3		
Concepts	Data		
# w01_km1: Heard the argument: Climate change a threat, but we should continue to extract oil as usual			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Have you heard or read the following statement? ... A. Climate change is a very serious threat, and a lot more must be done to prevent it. Norway should nevertheless continue to produce as much oil as we currently do, because the world needs energy.		
Concepts	Climate, Climatic changes, Climatic exposure, Petroleum, Petroleum industry, Oil pollution, Oil resources		
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km2: Heard the argument: Climate change a threat and we should reduce oil extraction			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Have you heard or read the following statement? ... B. Climate change is a very serious threat, and a lot more must be done to prevent it. This means that Norway should produce less oil than we currently do, because a large share of the world's fossil fuel must remain unused.		
Concepts	Climate, Climatic changes, Climatic exposure, Petroleum, Petroleum industry, Oil pollution, Oil resources		
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km3: Heard the argument: Climate change is not a threat and we should continue to extract oil as usual			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Have you heard or read the following statement? ... C. Climate change is a not a serious threat, and too much is being done to prevent it. This means that Norway should continue to produce as much oil as we currently do, because the world needs energy.		
Concepts	Climate, Climatic changes, Climatic exposure, Petroleum, Petroleum industry, Oil pollution, Oil resources		
Value	Label	Cases	Percentage
1	Yes, I have heard or read this.		
2	No, I have not heard or read this		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			

# w01_km36: Concerned about climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	How concerned are you about climate change?		
Concepts	Climate, Climatic changes, Climatic exposure		
Value	Label	Cases	Percentage
1	Very concerned		
2	Concerned		
3	Somewhat concerned		
4	Not particularly concerned		
5	Not concerned		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km37: Agreement with statement			
Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Which of the below statements do you most agree with?		
Concepts	Climate, Climatic changes, Climatic exposure, Petroleum, Oil pollution, Petroleum industry		
Value	Label	Cases	Percentage
1	Norway should continue to produce as much oil as we currently do.		
2	Norway should produce less oil than we currently do		
3	Norway should produce more oil than we currently do		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km4: Statement fits view on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Based on what you know, which of the following statements best describes your view on climate change?		
Interviewer's instructions	Choose one option.		
Concepts	Climate, Climatic changes, Climatic exposure, Attitudes		
Value	Label	Cases	Percentage
1	I believe that the climate is not changing.		
2	I don't know whether the climate is changing or not.		
3	I believe that the climate is changing, but that it has little to do with human action.		
4	I believe that the climate is changing, and that it to a large extent is due to human action.		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km35: How many share your view on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	The last question you answered was about your view on climate change. Which proportion of the Norwegian population do you believe shares your views on the issue?		

# w01_km35: How many share your view on climate change			
Concepts		Climate, Climatic changes, Climatic exposure, Attitudes	
Value	Label	Cases	Percentage
1	All, or nearly all		
2	Many (more than half)		
3	Around half		
4	Some (fewer than half)		
5	None, or nearly none		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_ran2: Randomizes independently from U			
Information		[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]	
Statistics [NW/ W]		[Valid=4775 /-] [Invalid=130 /-]	
Literal question		Randomizes into two groups and selects one of the following questions: KM5 or KM6	
Concepts		Climate, Climatic changes, Climatic exposure	
Value	Label	Cases	Percentage
1	r1		
2	r2		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km5: How serious is climate change			
Information		[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]	
Statistics [NW/ W]		[Valid=4905 /-] [Invalid=0 /-]	
Literal question		How serious a threat is climate change overall?	
Concepts		Climate, Climatic changes, Climatic exposure	
Value	Label	Cases	Percentage
1	Very serious		
2	Serious		
3	Somewhat serious		
4	Not very serious		
5	Not a threat		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km6: Climate change is serious to me personally			
Information		[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]	
Statistics [NW/ W]		[Valid=4905 /-] [Invalid=0 /-]	
Literal question		How serious a threat is climate change to you personally?	
Concepts		Climate, Climatic changes, Climatic exposure	
Value	Label	Cases	Percentage
1	Very serious		
2	Serious		
3	Somewhat serious		
4	Not very serious		

# w01_km6: Climate change is serious to me personally			
Value	Label	Cases	Percentage
5	Not a threat		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km7: Possible to do something about climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Let's assume that climate change may become a major threat to the world in the future if no action is taken. To which extent do you believe that it is possible to do anything to prevent harmful climate changes?		
Interviewer's instructions	Select the statement that is closest to your view:		
Concepts	Climate, Climatic changes, Climatic exposure		
Value	Label	Cases	Percentage
1	It is impossible to do anything to prevent harmful climate change.		
2	It is possible, but very difficult to do something to prevent harmful climate change.		
3	It is possible and completely realistic to do something to prevent harmful climate change.		
4	It is easy to prevent harmful climate change.		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>

Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	In your opinion, how good is your knowledge on climate change?		
Concepts	Climate, Climatic changes, Climatic exposure, Knowledge (awareness)		
Value	Label	Cases	Percentage
1	Very good knowledge		
2	Good knowledge		
3	Some knowledge		
4	Little knowledge		
5	No knowledge		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km22k: Comment: Knowledge about climate change [anonymised]			
Information	[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]	[Valid=0 /-]		
Literal question	If you have any comments to the question, you may enter them here:		

# w01_km22k: Comment: Knowledge about climate change [anonymised]			
	[anonymised: Data withheld for the sake of anonymity]		
Concepts	Climate, Climatic changes, Climatic exposure, Knowledge (awareness)		
# w01_km23: Discussion on climate change is characterized by conflict and disagreement			
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	To which degree do you think discussion concerning climate change is characterized by conflict and disagreement?		
Concepts	Climate, Climatic changes, Climatic exposure		
Value	Label	Cases	Percentage
1	To a very great degree		
2	To a great degree		
3	To some degree		
4	To a small degree		
5	Not at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km26: Diversity of opinion on climate change in the media			
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	In your opinion, how great is the diversity in opinion on climate change that emerges in the media?		
Concepts	Climate, Climatic changes, Climatic exposure		
Value	Label	Cases	Percentage
1	Very great diversity		
2	Great diversity		
3	Some diversity		
4	Little diversity		
5	No diversity at all		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_ran4: Randomiserer dersom U=1			
Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]		
Statistics [NW/ W]	[Valid=2389 /-] [Invalid=2516 /-]		
Pre-question	Randomiserer dersom U=1 inn i to grupper og stiller en av følgende spørsmål: KM27 or KM28		
Literal question	Randomizes if U=1 into two groups and selects one of the following questions: KM27 or KM28		
Concepts	Data		
# w01_km27: Scientists agree on climate change			
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	To which degree do you have the impression that scientists agree on climate change?		
Concepts	Climate, Climatic changes, Climatic exposure, Research workers, Research		

w01_km27: Scientists agree on climate change

Value	Label	Cases	Percentage
1	To a very great degree		
2	To a great degree		
3	To some degree		
4	To a small degree		
5	Not at all		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_km28_2_1: Proportion of scientist that agree on climate change

Information	[Type= discrete] [Format=numeric] [Range= 0-999] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Literal question	In your opinion, which proportion of climate scientists agree that global warming is a direct consequence of humans using coal, oil and gas?
Interviewer's instructions	Please pick a number between 0% and 100% below.
Concepts	Climate, Climatic changes, Climatic exposure, Research, Research workers

Value	Label	Cases	Percentage
0	0 %		
10	10		
20	20		
30	30		
40	40		
50	50		
60	60		
70	70		
80	80		
90	90		
100	100 %		
998	Not asked		
999	No response		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_km28k: Comment: Proportion of scientist that agree on climate change [anonymised]

Information	[Type= discrete] [Format=character] [Missing=*]
Statistics [NW/ W]	[Valid=0 /-]
Literal question	If you have comments to the question, you may enter them here: [anonymised: Data withheld for the sake of anonymity]
Concepts	Climate, Climatic changes, Climatic exposure, Research, Research workers

w01_ran5: Randomizes if U=1

Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=2387 /-] [Invalid=2518 /-]
Literal question	Randomizes if U=1 into two groups and selects one of the following questions: KM29 or KM30
Concepts	Data

# w01_km29: Norway committed through international agreements to cut emissions			
Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	As you may know, government leaders from all over the world met in November to negotiate a new international agreement to limit the emissions of greenhouse gases. To which extent do you agree that Norway commits itself in such international agreements?		
Concepts	Climate, Climatic changes, Climatic exposure, International politics, International agreements		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_km30: Norway committed through international agreements to cut emissions, even if China does not			
Information	[Type= discrete] [Format=numeric] [Range= 1-7] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	As you may know, government leaders from all over the world met in November to negotiate a new international agreement to limit the emissions of greenhouse gases. To which extent do you agree that Norway commits itself in such international agreements, even if it means that Norway does this before other countries such as e.g. China?		
Concepts	Climate, Climatic changes, Climatic exposure, International politics, International agreements		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_dt1_1: Authorities have a right to: indefinite detainment			
Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... A. Keep individuals in custody as long as they want without a judicial process		
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility, Detention		

w01_dt1_1: Authorities have a right to: indefinite detainment

Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_dt1_2: Authorities have a right to: tapping phone calls

Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Now we shall go on to another topic.
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... B. Tap people's phone calls
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility, Interception of communication

Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

w01_dt1_3: Authorities have a right to: randomly stop and search people on the street

Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]
Pre-question	Now we shall go on to another topic.
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... C. Randomly stop and search people on the street
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility

Value	Label	Cases	Percentage
1	Strongly agree		

# w01_dt1_3: Authorities have a right to: randomly stop and search people on the street			
Value	Label	Cases	Percentage
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree

97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_dt1_4: Authorities have a right to: arrest people without suspicion			
Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... D. Arrest people without specific suspicion		
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_dt1_5: Authorities have a right to: monitor electronic communication			
Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... E. Monitor electronic communication (beyond telephones)		
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility, Security surveillance systems		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		

# w01_dt1_5: Authorities have a right to: monitor electronic communication			
Value	Label	Cases	Percentage
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_dt1_6: Authorities have a right to: monitor/bug room			
Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... F. Monitor/bug rooms		
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		
4	Neither agree nor disagree		
5	Disagree somewhat		
6	Disagree		
7	Strongly disagree		
8	Dont wan't to respond		
97	No answer		
98	Not asked		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_dt1_7: Authorities have a right to: cordon off large part of the city			
Information	[Type= discrete] [Format=numeric] [Range= 1-8] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Pre-question	Now we shall go on to another topic.		
Literal question	Imagine that the authorities suspected that a terrorist attack was imminent. To which extent do you agree that the authorities should be entitled to: ... G. Cordon off large parts of the city		
Concepts	Safety and security, Safety and security measures, State security, Terrorism, Protection from terrorism, Government role, Government, Political accountability, State responsibility		
Value	Label	Cases	Percentage
1	Strongly agree		
2	Agree		
3	Agree somewhat		

# w01_dt1_7: Authorities have a right to: cordon off large part of the city			
Value	Label	Cases	Percentage
4	Neither agree nor disagree

Value	Label	Cases	Percentage
1	Akershus		
2	Oslo		
3	Østfold		
4	Vestfold		
5	Hedmark		
6	Oppland		
7	Buskerud		
8	Telemark		
9	Vest-Agder		
10	Aust-Agder		
11	Rogaland		
12	Hordaland		
13	Sogn og Fjordane		
14	Møre og Romsdal		
15	Sør-Trøndelag		
16	Nord-Trøndelag		
17	Nordland		
18	Troms		
19	Finmark		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_P4: Highest completed education			
Information	[Type= discrete] [Format=numeric] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Highest completed education		
Concepts	Data		
Value	Label	Cases	Percentage
1	No education/elementary school		
2	Upper secondary education		
3	University/University college		
97	No answer		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_P5_1: Age			
Information	[Type= discrete] [Format=numeric] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		

# w01_P5_1: Age			
Literal question	Age		
Concepts	Data		
Value	Label	Cases	Percentage
1	18-25		
2	26-35		
3	36-45		
4	46-55		
5	56-65		
6	66-75		
7	75 and above		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_P5_2: Age			
Information	[Type= discrete] [Format=numeric] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Age		
Concepts	Data		
Value	Label	Cases	Percentage
1	18-29 years		
2	30-59 years		
3	60 and above		
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>			
# w01_Weight1: Weight based on variables P3, P5_2, and P1. See documentation report.			
Information	[Type= discrete] [Format=numeric] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Weight based on variables P3, P5_2, and P1. See documentation report.		
Concepts	Data		
# w01_Weight2: Weight based on variables P3, P5_2, P4, and P1. See documentation report			
Information	[Type= discrete] [Format=numeric] [Missing=*]		
Statistics [NW/ W]	[Valid=4905 /-] [Invalid=0 /-]		
Literal question	Weight based on variables P3, P5_2, P4, and P1. See documentation report
