Travel and Holiday Survey, 2017, 1st quarter, Travels

Overview	
Type	Travel and Holiday Survey/Omnibus
Identification	NSD2583-2
Version	Production Date: 2019-07-08 <u>Notes</u> Original data from Statistics Norway are documented and prepared, second NSD-version.
Series	Travel and Holiday Survey is a continuance of Statistics Norway's Omnibus Survey (1992-2004). Data is collected four times per year. The main goal of the survey is to map out Norwegians' travel habits, as well as to gather other official statistics. This means that the Travel and Holiday Survey also captures other themes than travel.
<p><u>Abstract</u></p> <p>The travel and holiday survey is conducted four times a year, once every quarter. The main purpose of the survey is to establish Norwegians travel habits as well as to gather other official statistics. Apart from data about norwegians travel habits data is also collected about use of tobacco, alcohol and other substances, use of internet and informational technology, solid fuel heating, flu vaccine, vaccination of children and also attitudes towards immigration. Some subjects are included every quarter, others are only included once.</p> <p>This is the travel file. A person file is also available for order. An overview of subjects covered in the first quarter follows below.</p> <ul style="list-style-type: none"> - Household - Work and employment - Travels with atleast one overnight stop - Nicotine and alcohol habits - Solid fuel heating - Income 	
Kind of Data	Survey data
Unit of Analysis	Individual

Scope & Coverage	
Keywords	Travel, Transport, Travellers' sites, Households, Income, Working conditions, Habits
Topics	Transport, travel (and mobility)
<u>Time Period(s)</u>	2017
<u>Countries</u>	Norway
<p><u>Geographic Coverage</u></p> <p>Country</p>	
<p><u>Universe</u></p> <p>The Norwegian population between 16 and 79 years.</p>

Primary Investigator(s)	Statistics Norway, SSB

Other Producer(s)	Statistics Norway (SSB)
Funding Agency/ies	Statistics Norway (SSB)

Sampling

Sampling Procedure

A nationwide representative sample was drawn from the Norwegian population between the age of 16 - 79 years from SSBs central population database - BeReg. The survey was conducted by the use of telephone administered interviews (CATI) and collected mainly in January 2017.

Gross sample: 2000 persons

Net sample: 1225 persons

Response rate: 61,5

Data Collection

Data Collection Dates	start 2017-01-09 end 2017-02-17
Time Period(s)	start 2017 end 2017
Data Collection Mode	Telephone interview
Data Collector(s)	Statistics Norway (SSB)

Accessibility

Distributor(s)	NSD – Norwegian Centre for Research Data
-----------------------	--

Access Conditions

The order form has to include name, institutional affiliation, project title, information about sources of financing and postal address. A declaration of secrecy has to be signed before delivery of data.

Citation Requirements

Users are obliged to refer to producer and distributor of the data by writing the following in forewords or footnotes in eventual publications:

"(Some of) the data applied in the analysis in this publication are based on "Travel and Holiday Survey, 2017, 1st quarter, Travels". The data are provided by Statistics Norway, and prepared and made available by NSD – Norwegian Centre for Research Data. Neither Statistics Norway nor NSD are responsible for the analysis/interpretation of the data presented here."
