Travel and Holiday Survey 2018, 2nd quarter

Overview	
Type	Travel and Holiday Survey/Omnibus Survey
Identification	NSD2725-3
Version	Production Date: 2019-08-05 <u>Notes</u> Data from Statistics Norway are documented and prepared, first NSD-version.
Series	Travel and Holiday Survey is a continuance of Statistics Norway's Omnibus Survey (1992-2004). Data is collected four times per year. The main goal of the survey is to map out Norwegians' travel habits, as well as to gather other official statistics. This means that the Travel and Holiday Survey also captures other themes than travel.
<u>Abstract</u> The travel and holiday survey is conducted four times a year, once every quarter. The main purpose of the survey is to map Norwegians' travel habits, as well as data collection for other official statistics. In addition to data on Norwegians' travel habits, data on tobacco and other drugs, use of the Internet and information technology, firewood, influenza vaccine, child vaccination and attitudes to immigration are also collected. Some topics are included each quarter, while others are included only once	
Kind of Data	Survey data
Unit of Analysis	Individual

Scope & Coverage	
Keywords	Travel, Households, Information and communications technology, Solid fuel heating, Immunization, Influenza, Working conditions, Income, Voting
Topics	Transport, travel (and mobility), Labour and employment, Politics, Information technology
<u>Time Period(s)</u>	2018
<u>Countries</u>	Norway
<u>Geographic Coverage</u> Country	
<u>Universe</u> People aged 16 to 79 years.	

Producers & Sponsors	
Primary Investigator(s)	Statistics Norway, SSB
Other Producer(s)	Statistics Norway (SSB)
Funding Agency/ies	Statistics Norway (SSB)

Sampling
<u>Sampling Procedure</u> For each quarter, a national representative sample consisting of 2,000 persons aged 16-79 years was drawn from Statistics Norway's central population database - BeReg1. For the first and second quarters, the age is calculated as at 31.12.17.

The samples are drawn so that the percentage distribution by gender and ten years age groups are equal to the percentage distribution by corresponding groups in the population. The population figures are as of 1.1.2018.

The data was collected through telephone-managed interview (CATI). Just before the data collection started, an invitation email with information about the survey was sent out. Invitation mail was sent out in pools every week at intervals of one week. All respondents without an email address from KRR and guardians for respondents under the age of 18 received information letters on paper.

Gross sample: 1 992 persons

Net sample: 1 032 persons

Response rate: 51,8 per cent

Data Collection	
Data Collection Dates	start 2018-04-03 end 2018-05-19
Time Period(s)	start 2018-04 end 2018-05
Data Collection Mode	Telephone interview
Data Collector(s)	Statistics Norway (SSB)

Accessibility	
Distributor(s)	NSD – Norwegian Centre for Research Data
Access Conditions The order form has to include name, institutional affiliation, project title, information about sources of financing and postal address. A declaration of secrecy has to be signed before delivery of data.	
Citation Requirements Users are obliged to refer to producer and distributor of the data by writing the following in forewords or footnotes in eventual publications: "(Some of) the data applied in the analysis in this publication are based on "Travel and Holiday Survey 2018, 2nd quarter". The data are provided by Statistics Norway, and prepared and made available by NSD – Norwegian Centre for Research Data. Neither Statistics Norway, nor NSD are responsible for the analysis/interpretation of the data presented here.
